YOUNG PEOPLE'S SOCIALIST LEAGUE

Another nail in the box we are building around the activities of the Young People's Socialist League at FSU was driven in

this week with their distribution of a pamphlet recruiting membership from among the enrolling students. The pamphlet not only solicits support for an approved on-campus organization (YPSL) but in terms of equal strength solicits membership and support for CORE and the Liberal Forum, both off-campus and unapproved groups.

Senator Carraway also got a copy of this; and in advising us of it, said he had been told that its distribution was approved by a "Mr. [redacted]" of the FSU faculty, presumably [redacted] director of student affairs. We are following up.
